Stylish and compact design

Fiber Optic HDMI

The Rainbow Fish Fiber Optic HDMI cable provides an easy to connect solution for sending high-definition content between HDMI compatible products. HDTV, Blu-ray, 3D video, DVR, home theater projectors, games, computers and mobile devices can display full HD with Rainbow Fish.

The Rainbow Fish fiber optic technology is superior to typical copper cables that sends signals up to 1000 feet. With Rainbow Fish Fiber Optic HDMI, there is no signal degradation over long distances and the sleek fiber cable is attractive and easy to use.
